

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—Mrs. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

TRY THE MONEY-BACK CURE FOR INDIGESTION

Nine times in ten stomach derangements are responsible for sallow complexion, dull eyes and thin body.

It is the stomach that supplies nourishing blood to the muscles, the nerves and skin. If the stomach is healthy, plenty of nutritious matter will be absorbed by the blood. If it is not healthy, the food will ferment, and undigested, will pass along through the bowels, furnishing so little nutritious matter that the blood becomes impoverished, and the glow of health vanishes.

If you suffer from nervousness, sick headache, belching of gas, sour taste in the mouth, heaviness after eating, or any other miserable stomach disturbance, you need M-O-N-A, and the sooner you get it the quicker you will be healthier and happier.

It will relieve any distressed stomach condition almost immediately. It will cure it used according to directions. E. G. Murphey sells it for 50c a large box, and he thinks enough of it to guarantee it to cure indigestion.

CLIMATE ONE OF CHIEF ATTRactions OF FAIR

SEATTLE DAYS LIKE INDIAN
SUMMERS OF EAST.

Fine Fishing, Mountain Climbing and
Side Trips Add to Pleasure
of Visitors.

Seattle, Wash., April 8.—If it were not for the warm waters that flow this way with the Japan current, Seattle would grow as cold in winter as Minnesota, and if it were not so far north it would be as warm in summer as a whole lot of other places. As it is if the thermometer so far forgets itself as to hit 20 above zero in winter or 85 in summer, the local newspapers print a column about it and the Associated Press sends out a story on a cold day, or a hot day in the northwest, whichever the season may be.

Climate, as a matter of fact, is to be one of the greatest attractions that will attach to the Alaska-Yukon-Pacific exposition which opens June 1st. Seattle's summers are like the "Indian summers" of the east; brilliant, clear, always comfortable and with days that run well into nights for the city is so far north that it comes strongly under the Arctic influence and at 9 o'clock in midsummer, there is still the bonnet of the sun in the sky.

With the climatic advantages of Puget Sound during the summer months, it possesses in addition more attractive features for side trips and outings, than is offered by any other country in the world. The waters of Puget Sound, the Straits of Juan de Fuca, Hood's Canal and the thousand and one delightful bays and inlets comprise the finest yachting opportunities in existence. Steamer service is adequate and every point may be easily reached and this with small expense.

The entire mountain country is rich in lakes and streams, and there is none of these in which trout and salmon are not plentiful and easily taken. The fishing season is open during season, and at this time of the year, offers the very finest sport to be had. Within the city limits of Seattle there are two large fresh water lakes, and excellent sport with rod and fly is to be had in the waters surrounding the exposition ground.

Mountain climbing is at every hand, and the peaks of the rugged Olympics and Cascades offer facilities for this venturesome sport not excelled by the Swiss Alps, or ranges of Asia. Summer resorts are to be found at every point of vantage, and all of these are noted for some especial feature or desirable advantage.

The voyage through the San Juan Islands surpasses for grandeur and scenic effect the far famed inland sea of Japan. The foreign trip to the city of Victoria can be made in one day and it is not to be overlooked. The far north is at the very doors of Seattle, and Alaska, the "land of the midnight sun," may be seen under its very best conditions, one week is required to make the return voyage by way of the inside passage, and the voyager is carried through narrow passages and intricate windings, under the very shadows of towering snow-capped peaks, and close by the faces of mammoth glaciers whose disintegrating ice supplies the northern seas with floating icebergs.

There are no sunstrokes in Puget Sound during the summer months. White clothing of thin material can be worn, but it is neither required, or even comfortable, except in the middle of the day. For a midsummer outing where pleasure, comfort, scenery, sport and in fact everything necessary are sought, Seattle has more to offer than can be found in any other place.

Fine prospects for early grass as it is already coming and is in places two or three inches high, and cattle are thriving.
